

fleet in focus: POSH Xanadu

1 VShips Brazil handles crew management for the POSH Xanadu which is a state-of-the-art Semi-Submersible Accommodation Vessel. The vessel is designed to take people and supplies to offshore installations in remote sea locations.

Vessel Type: Semi Submersible Accommodation Vessel
Builder: PaxOcean Engineering Zhoushan Co. Ltd, China
Flag: Singapore
Length: 122.4m
Main Deck Breadth: 55m
Accommodation: 390 cabins
DP system: Kongsberg K-POS DP3
Transit speed: Approx. 11kt

2 The POSH Xanadu also features office space with business phone and internet access and a Mess Room with capacity for up to 250 people. There is also a gym, sports room, game room, library, lounge and cinema for crew members to use in their leisure time.

3 **Thrusters**
 9 thrusters producing total thrust power of 20,800kW, giving the vessel tremendous flexibility in operations.

4 **Cranes**
 Two cranes with SWL of 100T and 150T (expandable to 300T) are able to support light construction activities.

5 **Helideck**
 With a diameter of 22.2m, the helideck is large enough for the Sikorsky S92 and S61N helicopters.

6 **Ship-shaped semi-sub hull form**
 The vessel transforms from a fast moving vessel into an extremely stable semi-sub platform for various offshore support operations.
